PROFESSIONAL SUMMARY

I'm a self-taught programmer with over 3 years of experience and currently working toward a computer science degree to grow as a software engineer and web developer. I've worked on projects like MerchPixel.com, Aivora.pro, and MercherWorld.com, and I've also done freelance work, building practical solutions for real-world problems. I'm passionate about coding, creating user-friendly applications, and constantly learning to stay ahead in the tech world.

PROJECTS

Merchpixel.com

Tech Stack: NextJs, Node.js, Firebase, Stripe, NextAuth, NextUI, API's

- Designed and developed a user-friendly web application for print-on-demand AI T-Shirt designs.
- Integrated APIs for secure payment processing and cloud storage for design assets.
- Implemented advanced search and filter features to enhance user experience.
- Reduced load times by 30% through optimized back-end queries and efficient caching techniques.

Aivora.pro

Tech Stack: NextJs, Node.js, Firebase, Stripe, NextAuth, NextUI, API's

- Created an AI-powered tool for building Chrome extensions from user prompts.
- Designed a responsive interface with intuitive workflows for non-technical users.
- Implemented real-time functionality for generating and previewing extensions dynamically.
- Ensured cross-browser compatibility and secure handling of user data.

MercherWorld.com

Tech Stack: WordPress, Javascript, PHP, MySQL, WooCommerce

- Developed a Worpress blog and resource platform for e-commerce sellers.
- Customized WordPress themes and plugins to align with branding and functionality goals.
- Built SEO-optimized content structures, leading to a 40% increase in organic traffic.
- Integrated WooCommerce for seamless affiliate marketing and product recommendations.

Chrome Extensions and Mobile Apps (Merch automation, KDP autofill, Elquran, Read Elquran)

Tech Stack: JavaScript, Chrome Extension APIs, Wordpress, React NAtive, Expo, Redux

- Developed extensions to automate tasks for print-on-demand and Kindle Direct Publishing, featuring bulk uploads, autofill, and real-time data storage with Wordpress Integration.
- Created mobile apps using React Native, Expo, and Redux, ensuring seamless user experiences.
- Implemented efficient state management and reusable components to streamline development and future updates.

EDUCATION & CERTIFICATIONS

AS Computer Science (Expected June 2025)
Ohlone College, California

Certificate in Accounting
Ohlone College, California

Introduction to Generative AI
IBM

KEY SKILLS

- Programming Languages: JavaScript, Python,
- Web Development: React, Node.js, HTML, CSS
- Database Management: MySQL, MongoDB, Firebase
- Tools & Platforms: Chrome Extension APIs, WordPress, WooCommerce
- Other Skills: Problem-Solving, Data Analysis, API Integration, Automation Development
